NPL Site Name: *BN-Somers Tie Plant, nr*

We have completed a preliminary review of the above site and plan to take the following action (check one):

☐ A site visit needs to be conducted before the assessment can be done. We have tentatively scheduled the visit for _____ (month).

☒ It is unlikely there is an immediate threat or there is an ongoing removal action to address any threats. assessment will be completed by August 30.

☐ We believe that a removal action is warranted and are proceeding with efforts to initiate it while the assessment form is being completed.
